

HOMER FIELD IS AGAIN EXTENDED

Shreveport, La., April 27.—The Homer and Bull Bayou fields have been extended by the completion of two good wells. A 600 barrel initial production has been obtained by the Homer field. The well is located on the Homer field, section 25-12-11, at a depth of 1250 feet. This well extends the proven field a distance of one-quarter mile to the northeast.

The Bull Bayou field was extended two miles to the southwest by the completion of the No. 1 Albritton of Albritton and Dillie, section 25-12-11. The well is flowing 100 barrels.

The opinion that oil will be found within the Shreveport field is a new one, but a promising one nevertheless. One geologist says that Shreveport is situated on one of the most promising formations within the entire northern Louisiana oil fields, and that before long the streets and back yards of the city will be modern oil camps.

CISCO WELL HOLDS UP ITS INITIAL PRODUCTION

Clarksburg, Texas, April 27.—Cisco's first producing well—the Smith-Ross test, 15 miles northwest of Clarksburg, held up to its initial production remarkably well. The well continued to flow 1000 barrels daily. It is situated on the Cisco Northwestern Railroad into Levey.

It is generally believed that the well will settle down within a short time to a steady daily production of 700 barrels. As yet the well has not been cleaned out.

WELL NORTHWEST TULAROSA REPORTED DOWN 1,220 FEET

Tularosa, N. M., April 27.—The Southwestern oil well northwest of Tularosa, N. M., was down 1220 feet yesterday. Drilling is discontinued for a few days while coal and casing is being hauled out. Twelve hole casing has been put in 1200 feet and is being cemented. The well is being placed inside the 12. Geologist Snyder reports all indications as favorable.

Ship Company Buys Equipment For Oil Wells

The Pacific Steamship company, with headquarters in Seattle, is looking to Texas to furnish the fuel oil for its ships in the future. For several months the H. F. Alexander company of Seattle has been quietly operating around Marathon, Texas, along the southern Pacific. It became known Tuesday that the company has just bought \$4000 worth of equipment from the Mine & Smelter Supply company in El Paso. Two of the company's wells are drilling and the third is to start soon. One of the two wells being drilled is down 3600 feet.

The president of the company operating around Marathon is H. F. Alexander who also is president of the Pacific Steamship company. He has leased up thousands of acres around his wells. He was recently in El Paso where he said he believed Texas would some day have the world's greatest oil field and that his company hoped to get a large fuel supply for its ships.

Another big oil deal has just been closed in the leasing of 200,000 acres of land around Marathon in three oil zones owned by C. S. Seymour of Long Beach, California. This land, which is about 140 miles from El Paso, was leased from W. T. Jones and wife and a Capt. Gillett.

Mr. Seymour who was in El Paso Tuesday conferring with Dean E. H. Worrell at the school of mines and with other men who have knowledge of Texas topography said he was coming to drill four deep test wells. Two are to be drilled within 30 days and two within six months. The land lies in Jeff Davis, Presidio and Brewster counties. It is said to be an excellent formation.

OIL SHOWS NEAR WACO.
McGregor, Texas, April 27.—A showing of oil has been found in a well at mile 10 west of Waco, being drilled by the St. Louis Pool corporation and associates. The well is approximately 300 feet deep. Drilling is being continued.

ASTHMA WOULD'NT LET HIM LIE DOWN

Hasn't had a sign of trouble now for over 9 months.

"A year ago I had asthma so bad my wife thought I would never get over it. I had doctors for a long time without results. I had not been in bed for 3 weeks, could not even sit up straight in a chair. Then I heard of Milks Emulsion and started using it. It was only two days later that I could go to bed and sleep soundly. After taking eight bottles (24 worth) I found myself completely cured. It is over 9 months now since I quit taking Milks Emulsion, and I haven't had a symptom of asthma since."—Geo. W. Baker, R. P. D. 1, Latrobe, Pa.

Why shouldn't Milks Emulsion help you? It has worked wonders for others. It costs nothing to try. Milks Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength, Milks Emulsion is strongly recommended to those whose sickness has weakened, and is powerful aid in restoring and repairing the effects of wasting diseases. Chronic stomach trouble and constipation are promptly relieved—usually in one day.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream.

No matter how severe your case, you are urged to try Milks Emulsion under this guarantee—Take six bottles with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 60c and \$1.20 per bottle. The Milks Emulsion Co., Terre Haute, Ind. Sold by druggists everywhere.—Adv.

FIND TOYAHOL GOOD LUBRICANT

Toyah, Texas, April 27.—Operators of autos and trucks about Toyah are taking an interest in trying out the lubricating qualities of Toyahol oil. A. Stanton, owner of it wells here, has furnished the oil to experiment with motor vehicles and engines.

It is being lubricated with the oil as it comes from the well. Drivers say they have experienced good results.

J. F. Workman, of Toyah, after a month's trial with the oil used on a two-ton Republic truck, states that the results have been satisfactory.

"I have had no trouble with lubricating since using the Toyahol oil," states Mr. Workman. "The motor has never overheated. It stays on the bearings better and leaves the surface smooth as any refined oil I have used. I have handled several kinds of motors and used several kinds of lubricating oils, but have had less trouble since using this oil than is ordinarily experienced with motors due to lubricating troubles."

This is not the first time Toyahol has been tried out and proved to be a high-grade lubricant. L. P. McKay, an engineer on the T. & P. railway, tried out the oil several years ago. In reply to inquiry as to the results of his experiments Mr. McKay has given the following answer:

"A barrel of oil was shipped from the Toyah field to Big Spring, Texas, sometime between 1915 and 1917. I was instructed by the master mechanic to use this barrel of oil on an engine and report back to him my findings and opinion of the oil. I used this oil on engine 340, running in passenger service on the Big Spring district. During this test the engine was run 127 miles with one filling, such trip without having any trouble, while ordinarily engines on this district are oiled three times each trip."

The oil was used on all parts of the engine, lubricating valves, cylinders and machinery, also on boxes. I found it very satisfactory. It is an engine oil, and much superior to that furnished by the railroad company. I never had another engine stay on small connections like this oil did, and I do not hesitate to say that it is the best engine oil I ever used."

UNITED STATES PETROLEUM COMPANY BUYS REFINERY

Sherman, Texas, April 27.—The United States Petroleum and Refining corporation has purchased the refinery of the Merchants and Farmers Refining plant of this place. The new owners have secured the right to tap the Texas company's pipe line, which runs along the eastern edge of Sherman. The company has contracted for \$50,000 barrels of crude oil. Its plans for more tanks, machinery, trucks and cars will be enlarged at once.

OIL SHOWING ENCOUNTERED IN WELL AT EAGLE PASS

Eagle Pass, Texas, April 27.—The International Oil and Gas company is confident that its well in this neighborhood will be a pioneer. So far formations encountered have proven very promising. The first showing of oil in this well was encountered at a depth of 28 feet. The showing has been growing stronger as the drill goes deeper. It is now 240 feet deep and has passed through seven feet of coal.

PHOENIX COMPANY BRINGS IN WELL NEAR EDHOBBY

Eastland, Texas, April 27.—A 1200 barrel well has just been brought in by the Phoenix Oil company near Edhobby. It is the company's drill No. 2.

During the past two weeks the Magnolia Petroleum company's two wells on the Anderson tract have increased their flow from 200 barrels to 600 barrels each. The wells have been deepened.

DEEP TEST SPUDDED IN

Quannah, Texas, April 27.—The deep test planned for some time by the Fort Pitt Petroleum corporation has been spudded in in the north-west section of Hardeman county. A sizable crew has been employed so that the well may be completed at once.

News Brevities

Train Bulletin.
All afternoon and night trains were reported on time Tuesday.

Dr. Kewerling's Van Alameda, eye, ear, nose, throat. 616 Trust Bldg.

Take Place on Vocational Board.
N. H. Edwards, former investigation officer of the federal vocational education board, succeeded El Sage Monday afternoon as manager of the El Paso office of the board. W. A. Burke, former director of the work in El Paso, has been transferred to the inspection branch and will arrive here Thursday on an inspection trip.

El Paso Seed Co.'s 1920 Catalog now ready. Write or call for a copy.

Watch Stolen in Juarez.
A. C. Farmer, of Wichita Falls, Texas, reported to the police Tuesday morning that a valuable watch was stolen from him in Juarez Monday. A description of the watch was furnished the El Paso detectives.

Trouble.
Avoid trouble. Leave baggage checks at Longwell's or telephone No. 1.

Court Session Postponed.
The special session of the 14th district court, which was to have been held Thursday to try civil cases transferred from Hindershot county, has been indefinitely postponed by Judge W. D. Howe at the request of attorneys on both sides. The day term of court will begin next Monday.

To Build Five Bungalows.
Permits to build five bungalows at a total cost of \$20,000 were obtained Monday afternoon by H. P. Hadfield from city building inspector Perry M. McGhee, Jr. They will be erected in the 100 block on Alexander street and will be built of brick.

H. H. Hendrick, Auditor, Tax Assessor. 220 First National Bank Bldg.

Conference at Tucuman.
Thursday will mark the opening of the New Mexico and West Texas conference of the Christian church at Tucuman, N. M. The conference will be attended by Rev. Milo Atkinson, Mrs. G. A. Thuma, Mrs. D. J. McGinn and Mrs. R. K. Henson, of El Paso.

Dr. Irwin and Gray, eye, ear, nose, throat. 616 Martin Bldg. Ph. 124.

Continues Revival Services.
A. E. Lewis, the "singing evangelist" of Chicago, who concluded a successful week of revival meetings at Ashbury M. E. church Monday night, will continue his work for a few nights longer in a hall at Texas and Alameda streets.

Dr. Anna Benn, Buckner Bldg. Ph. 677.

Elks to Have Weekly Luncheon.
Weekly luncheons will be held by the Elks at their club on Myrtle avenue hereafter, according to a resolution made at the first luncheon Monday, attended by officers and members of the lodge. The luncheons will be held every Monday and will be on the order of those given by the Rotary and Kiwanis clubs. There will be special entertainment features at each gathering. All Elks are eligible to attend. Seated ruler Harry McDowell presided at Monday's luncheon.

Aged Circus Man Comes To El Paso To Live, After Half A Century In Orient; Hopes To Find Sister Here

BACK from over the rim of the great beyond, after foreign lands have taken heavy toll in the death of his wife, three daughters and three grandsons, W. J. (Billy) Hart, 76 years old, who from the age of six years was a circus actor and owner, has arrived in El Paso to make his home. He recently arrived in the United States after an absence

BILLY HART.

of more than 50 years spent largely in the Orient.

Hart is also looking for a sister, Mrs. James Conkline, should she still be alive, whom he last heard from in El Paso some years ago. Mr. Hart was one of the original "Jolly Circus," a theatrical organization

Circus Destroyed by Typhoon

Mr. Hart landed in Key West 10 days ago from Soerabaya, Java, coming by way of the Suez canal. While he was in Bullo-Papen, Borneo, his circus was destroyed by a typhoon. This circus was the oldest known and was established in 1814 by Mr. Hart's father in Calcutta, India. It was said at one time to have the largest menagerie in the world.

"At Barent India, my wife, the famous rider, Dolly Davenport, was thrown from a horse and killed," Hart said. "Then I lost my three daughters at Apia, Mongolia, from the white plague. Twenty-three members of my company died in the same week. A little later we were in

for American Queens

Garouta, Java, my three grandchildren went on a picnic near Mount Krakatoa at Garoute. While they, with eight others were playing about on the mountain side, an earthquake shook down a quantity of heavy rocks and the 11 children perished. So naturally, having lost all I held dear, unless my sister is alive, being an old man and having had my circus wiped out, I decided to come back to America. I chose El Paso and will make my home here.

Has Away With 4 Years Old.
"At the age of six I joined the Stearns and Murry circus, after running away from home. Old Aunt Louisa Dockrell, one of the famous riders of her day, adopted me and taught me my A B C's. From then on I cast my lot with circus people."

For the information of the persons who are harassed by high prices of clothing here, Mr. Hart stated that he was wearing a suit of Indian silk cloth, which was tailored to fit him and which cost him a total of \$1.55 American money.

Mr. Hart will make his home at 744 Mesa avenue.

REAL ESTATE Is Your Best Bet

WHERE can you find anything that has gone up as little as real estate? There is nothing. El Paso real estate, especially, is a good buy. It is cheaper right now than anything in the city. Buy it. You can sell it for more in the future than you can buy it for now. Buy a home, buy lots, buy business property, buy valley land. You cannot lose.

We will be pleased especially to show you lots and homes in Austin Terrace, Richmond Terrace or Government Hill.

A WORLD REBUILT

By the Golden Rule not by the Rule of Gold

WHAT ARE the most precious elements in American Life?

Respect for the home? Jesus found women slaves; He made them companions. Down through the ages His Church has been the champion of women's rights and aspirations.

Respect for the man who works? It was the Carpenter of Nazareth who gave labor its great charter. "You are sons of God," He said. In that sentence Democracy was born.

Respect for property? Modern business is credit; and credit is character. All that makes property safe in the world is bound up in the reverence for law that religion breeds.

Respect for education? Who gave America her colleges? They were founded by Christian ministers, almost all of them.

On these great essentials must we build a better America, and a better world. And every one of them rests on the foundations of the Christian Church.

Thirty denominations of that Church are uniting now in a simultaneous campaign.

They are uniting because the task before the Church is too great for any one denomination; because there must be no duplication of effort; no waste.

They have had the courage to survey the whole task, and to ask for a budget large enough to sustain (1) the work abroad, (2) the work at home including

the Church's part in the huge task of Americanization, (3) the colleges and (4) hospitals supported by the Churches, (5) the religious training of the young, and to provide (6) a living wage for the Church's ministers.

The appeal is to every lover of America, to you whether you are inside the Church or out. The rebuilding of the world is a spiritual task. Faith must be the cornerstone on which the new foundations are laid true; the measuring rod by which the builders build must be the Golden Rule.

The INTERCHURCH World Movement of North America

United Financial Campaign
April 25th to May 2nd
